

Billing

Due to the increased costs of billing, co-payment is expected at the time services are rendered unless arrangements are made in advance with our Business Office. For your convenience, Premier Vein Care accepts MasterCard, Visa, Discover, checks, cash and money orders.

Assignments for Medicare coverage are accepted. This means that we will submit all claims and accept the payment allowed by Medicare on approved charges. You will be billed for any applicable deductible and 20% co-insurance. We will file any secondary insurance you may have. If your supplemental insurance does not cover the 20%, denies coverage for any reason, or remits the payment directly to you, then you will be personally responsible for the balance.

We will gladly submit all claims for private and secondary insurance provided you bring a current insurance card to your appointments

Upon determination of need for VnusClosure for your varicose veins, we will work with your insurance to obtain all necessary authorizations prior to your appointment.

Please note, Sclerotherapy for the relief of Spider Veins is considered cosmetic at this time, and not payable by insurance. For our patient's convenience, we offer financing through CareCredit and easy terms.
